EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: The prior art documents cited on the attached forms PTO-892 and PTO-1449 are considered to be the most relevant to the claimed invention. These documents show various optical waveguide couplers, some of which are achromatic and some of which have the first, second, and third coupling parts referred to in the claims. None of the prior art documents, however, disclose or reasonably suggest an achromatic integrated 2 by n divider/coupler ($n \geq 2$) having first and second waveguides each comprising first, second, and third coupling parts with the physical characteristics specified in claim 1, and with the first and third coupling parts being a first coupling type and the second coupling part being a second coupling type. More importantly, none of the prior art documents disclose or reasonably suggest selecting distance values D_c and L_c so that the first and second coupling types vary inversely with respect to wavelength. Claims 1-11 herein are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (571) 272-2351. The Examiner's normal work schedule is Tuesday through Friday, 6:30 AM to 5:00 PM. Any inquiry of a general or clerical nature (i.e. a request for a missing form or paper, etc.) should be directed to
